

To members of the FCC :

I wish to comment on the Indiana do-not-call law. This law has made a huge difference in our home life, especially at mealtimes and in the evening. I believe I should be able to decide whether I wish to have unsolicited advertising and solicitation in my own home. I believe there is no business large enough or influential enough to override the sanctity of my own home. Please do NOT weaken this law!

Thank you for listening.
